## St. Olav Rombo Ways

*A journey through time and thought*

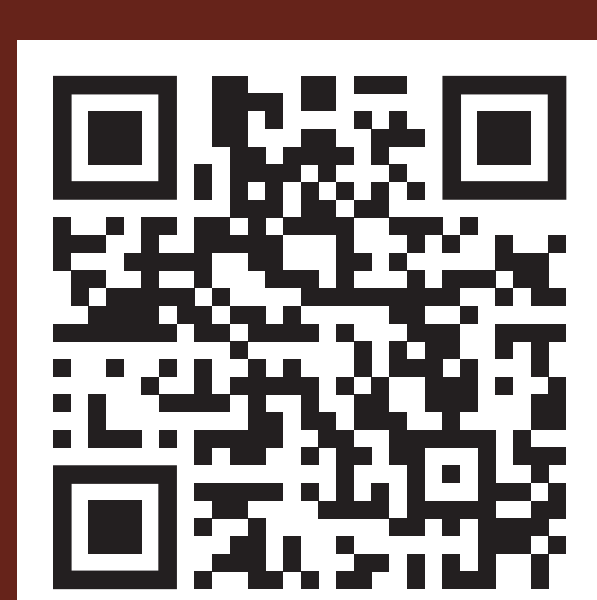

### A pilgrimage route since the 11th century

Romboleden is Sweden's longest pilgrimage trail, with roots dating back to the 11th century. It begins in Köping and winds its way through the landscape all the way to Trondheim in Norway.

Along the trail, you'll encounter magnificent scenery and powerful stories from Sweden's rich history. It is a journey for both body and soul – a chance to slow down and reflect on the path of life.
